

## Different Types of Weddings

### Choosing a Wedding Theme Has Never Been Easier

Whether you are love traditional or contemporary themes, outdoor adventure, creativity, travelling, or something else entirely, you can bring what you adore into the theme for your wedding. There are numerous themes to choose from and Australian has some beautiful and exotic wedding destinations to choose for your venue to help make your day memorable.

Choosing a specific theme will give you direction when it comes to choosing the car, cake, gown and other bridal wear, music, and wedding decorations for your big day.

Starting out with a mood board from magazines, Pinterest, and Instagram can get your creativity flowing. It is all about making a day that is uniquely yours. Choose a theme that you both love – it can be something that means a lot to both of you like a favourite romantic venue, or the theme of a hobby or passion you both share.

Here are some ideas:

#### 1. Destination Weddings

With its unique and stunning landscapes, Australia is a popular destination for couples from all over the world to get married. Some beautiful spots include the Whitsunday Islands, the Mornington Bay Peninsular, Queensland's Great Barrier Reef, Mount Tamborine, and the Blue Mountains. Fancy taking your wedding overseas? Bali, Vegas, Greece, and Fiji are all gorgeous – and perfect for a beautiful wedding venue and honeymoon.

## **2 Garden Weddings**

Australia is known for its beautiful weather and scenery, and many couples choose to take advantage of this by having their wedding in a gorgeous garden, park or vineyard. Chose from many beautiful botanical gardens and outdoor venues such as local parks and national parks. You may need to obtain permission from your local Council to book so please check before firming up your date.

## **3 Sustainable Weddings**

With a growing awareness of environmental issues, couples are choosing to have more eco-friendly weddings. This can include using recycled or biodegradable materials, sourcing local and seasonal produce, and minimising waste.

## **4. Beach Weddings**

There is nothing more beautiful than a beach wedding. It can be as causal or formal as you like. Long floaty bohemian dresses, brightly coloured bouquets, and gorgeous sandals go swimmingly with a beach themed wedding.

## **5. A Wedding on the Water**

If you both love the water, a wedding reception aboard a beautiful boat can be memorable and fun. The venue itself is enough to be different, exciting, and romantic and you can add some nautical themes to the tableware and as thank you gifts for your guests.

## 6. Weddings at Homesteads

If you are in love with your home, or have a friend or relative with a home that has charm and beauty that really resonates with you and your partner, this can be the perfect venue for your nuptials and wedding reception. The backyard should be large enough for all your guests of course, both during the ceremony and for the celebrations afterwards. Rose gardens, autumn leaves and summer breezes can make for a romantic and inviting atmosphere.

## 7. Golf Resorts

Golf Resorts are designed to be well maintained and provide entertainment. They are an ideal venue for those wanting a large dance floor, fabulous photo opportunities and ambience at all hours of the day and night. There is generally a manager who will help you to organise the finer details including menus and room setup. With lush green grounds and beautiful indoor settings there's a lot to love. You may need to book well in advance to secure your fave club.

## 8. Rustic Country Theme

Rustic country themed weddings can be held anywhere. If you don't live on a farm or wish to hire a country venue you can create the look with hay bales, lots of bare wooden features, country style furniture, unique lamps, and lighting. Warm colours, shared meals, live music and natural décor work well with a beautiful setting. Lots of unique and mismatched items help create the look. Though these themes have been around for eons they have become super popular in recent years.

## **9. Vintage Weddings**

Vintage chandeliers, classic cars, antique furniture and other timeless items create a vintage touch when incorporated into your wedding day. You can even have a classic gown and hairstyle from your favourite era to match the theme. Choosing the music is a lot of fun and a dress up booth for the reception can make the night.
